

SAYS INTERVENTION WOULD DELAY PEACE

MEXICAN CONSTITUTIONALIST GIVES HIS VIEWS OF PRESENT SITUATION.

HOSTILITY IN SENATE

Wyoming Senator Attacks Wilson's Policy of Laid Mission As Inadequate for Protecting Americans.

Washington, Aug. 6.—Col. Eduardo Hay, chief of staff of the constitutionalist forces in Sonora, gave to the senate foreign relations committee today a detailed account of his views on conditions in Mexico. The constitutionalist movement, he said, controlled at least two-thirds of Mexico. Though he made recommendations Col. Hay insisted that intervention by the United States would make things worse and that any mediation would be recognized by the government of Huerta was impossible. His idea of the solution of the situation was to list the embargo on arms, so that the constitutionalists could carry on a more active campaign. He declared that the troubles in Mexico would soon be settled.

Attacks Wilson's Policy. President Wilson's action in sending former Governor John Lind to Mexico has a special significance in the senate today by Senator Clark of Wyoming, who declared "something else must be done by the administration to guarantee adequate protection to Americans."

Today's official dispatches from Mexico contain no information of the five American officials of the Madero Lumber company who are believed in El Paso to have been taken by the oners and sent to Chihuahua. Inquiries are being made.

Honduras in Line. American Minister White at Tegucigalpa notified the state department today that Honduras has become the twenty-sixth nation to accept President Wilson's peace plan with the details suggested by Secretary Bryan. William J. Price of Danville, Ky., has been selected by President Wilson for minister to Honduras.

Senator Clark presented a resolution for an immediate investigation by the senate foreign relations committee on the condition of American citizens and American property in Mexico.

"This resolution is not introduced in a spirit of hostility to the administration or a criticism of the foreign relations committee," declared the senator, "but conditions are growing steadily worse."

NEW ACQUAINTANCE HAD SAVED HIS LIFE

Two Veterans Meet for First Time Since Battle in Civil War—Wisconsin Man Saved His Life.

[BY ASSOCIATED PRESS.]
West Salem, Wis., Aug. 6.—When Henry Robinson of this village one of the Union defenders, fell seriously wounded on the field, over which the Confederate cavalry was charging. At the risk of his life D. H. Hall, also a member of Company I, of the eighth Wisconsin, dragged Robinson off the field, saving his comrade's life. After the rescue the two men met again and Robinson, believed Hall had fallen in battle today a stranger in West Salem stopped a local man on the street to inquire his way. The presence of G. A. Robinson led to an exchange of names and Robinson found in the visitor his rescuer of half a century ago. They clasped hands the first time since that bloody day in Nashville in 1864.

AREOPLANE INVENTOR OWES EIGHT MILLION

Armand Deperdussin, Frenchman, Arrested for Forgery, and Indebtedness.

Paris, Aug. 16.—Debts amounting to over eight million dollars are included in the list of liabilities of Armand Deperdussin, the aeroplane inventor, who was arrested yesterday for forgery. Against these liabilities his assets, which are some what vague, are estimated at four million dollars. His bankers hold his paper for \$6,400,000 while other creditors claim \$1,600,000.

The newspapers here recount many stories of his personal extravagance. He was the foremost patron of aviation in France, spent money with the utmost lavishness. He always felt confident that aviation would develop rapidly, and his expenditures were based on this expectation.

FOREIGN GOLF EXPERTS COMING TO AMERICA

[SPECIAL TO THE GAZETTE.]
London, Aug. 6.—Harry Vardon and Edward Ray, the noted golf experts, sailed today on the Celtic to compete in the American Open championship tournament to be held next month at Brookline, Mass. WILL FIGHT STRIKE OF DOCK EMPLOYEES

Great Northern Officials Wish Peaceful Settlement But Ready to Fight to Standstill.

[BY ASSOCIATED PRESS.]
Superior, Aug. 6.—One more attempt will be made by the Great Northern road to amicably settle the strike of Allouez ore dock workers. In the event that advances to be made are rejected, the gauntlet will be thrown down to the strikers. A. W. W. agitator is chiefly responsible for the present situation according to company officials, and the road will fight the men to a standstill. C. O. Jenks, superintendent of the lake district, asked for an audience with the strikers' committee this morning at nine o'clock. Mr. Jenks will then determine exactly what points are at issue and what is demanded.

STRIKE SPREADS

Duluth, Aug. 6.—The dock laborers strike on the Allouez docks at Superior spread to the Duluth Mts. and Northern docks here today when the day shift men refused to work.

The men have not been yet present at the number one is estimated at from four hundred to six hundred.

Works For Strike.
F. H. Little, a worker for the I. W. W. who has been active in the Allouez strike has been working to get the Duluth men to go out. Hand bills calling on the Duluth men not to "scab" on their fellows at Superior were posted in the city.

Day Shift Refuses.
The strike opened here in orderly fashion. The night shift completed its work and the day shift refused to go to work. Officials of the company claim the men signed an agreement made at the beginning of the season to work through the season for the scale of wages specified at that time. The demands of the Allouez men which probably will be adopted by the Duluth men also are \$1.75 for day \$3.00 for night, \$5.00 for Sunday and 35 cents an hour overtime. The two Harbors men who are expected to strike were still working at 11 a. m.

LACK FUNDS TO AID CHINESE EXHIBITS

Chinese Government Opposed to China Entering Panama-Pacific Exposition—Recent Rebellion a Just Cause.

Peking, China, Aug. 6.—The Chinese government will be unable owing to its financial difficulties to furnish the funds necessary to support the Chinese exhibits at the Panama-Pacific Exposition in San Francisco in 1915. The government originally planned to contribute \$500,000 although many members of the Chinese parliament oppose it. Several members of the chamber of commerce also are reluctant in the matter owing to the losses to merchants in the recent rebellion.

Capture of Tehan.
Hankow, China, Aug. 6.—Government troops of August 4, captured the town of Tehan on Poyang Lake, the principal rebel base in the province of Kiang-Si. Another defeat was inflicted on the rebels in the province of Hu-Pei yesterday when the town of Shavang in Han-Kiang was captured from them.

Willemstad, Curacao, Aug. 6.—It was reported here today that General Leon Jurado, governor of the Venezuelan state of Falcon, who was believed to have been taken prisoner by Castro's adherents when they captured the town of Coro is marching from the state of Lara to attack the rebels. A mysterious steamer was cruising all day yesterday outside the harbor here.

MEDICAL CONGRESS OPENED IN LONDON

Seven Thousand Eminent Physicians and Surgeons from All Parts of World Represented.

[SPECIAL TO THE GAZETTE.]
London, Aug. 6.—Seven thousand eminent physicians and surgeons representing the allied professions of medicine and surgery in Europe, America and other parts of the world, were present today at the formal opening of the seventeenth meeting of the International Congress of Medicine. The opening took place in Albert Hall, where the delegates assembled to listen to an address of greeting by the Duke of Connaught. Sir Thomas Barlow, president of the congress, occupied the chair. Among those present about the president of the platform were a number of noted physicians and educators of the United States and Canada.

The congress will continue its sessions for six days. For purposes of discussion and clinical demonstrations it will be divided into numerous sections, each of which will take up a separate branch of medical science. The program is remarkable in its range and comprehensiveness, and deals with many matters that have a lay as well as merely professional interest. Special attention is to be given to diseases of children. Radiology will be a leading subject of discussion. Colonel Gorgas and other American service doctors will be especially prominent in the section devoted to naval and military medicine. Colonel Gorgas will address the congress on "Sanitary Organization in the Tropics" on which subject he is regarded as one of the foremost authorities in the world.

CLAMMER SELLS FIND FOR NOMINAL PRICE

Clam Hunter Sells Fifty Grain Pearl Valued at \$2,000 For Twenty Dollars.

Lansing, Ia., Aug. 6.—John Wendt, a clammer, who yesterday found a pearl of fifty grains while at work in the Mississippi river here last night, sold it to a Chicago buyer for \$20. Experts informed Wendt that it was worth a much larger sum, even putting the value as high as \$2,000, but he considered \$20 in hand a small fortune and snapped it up, offering eagerly without waiting for more.

CUT MILITARY FORCE IN COPPER DISTRICT

General P. L. Abbey Plans Method Whereby Soldiers May Take Rest—Provisional Companies Organized.

[BY ASSOCIATED PRESS.]
Calumet, Mich., Aug. 6.—Reduction of the military force in the copper mine strike district was planned today by General P. L. Abbey. Those soldiers whose presence at home is no longer imperative will be allowed to start back within a day or two and as the ranks of the various units are depleted provisional companies and battalions will be organized.

The plan was cooked upon as a sequel to the action of the four county supervisors giving Sheriff James Crume permission to organize a force of armed deputies. The sheriff began his campaign for deputies today.

"Mother" Jones was to make the first speech of her visit here today at Larium and men, women and children of all walks of life came on special trains and on foot to hear her. The mass meeting was scheduled to follow a big parade late tonight. Additional pump men and shop workers were called back to work by several mine managements, most of whom announced that would be several days before actual mining would be attempted.

VARSITY APPROPRIATION BILL IS RE-ENGROSSED

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Aug. 6.—Because of the discovery of errors in the engrossment of the university and normal appropriation bill, the bill is being re-engrossed in committees of both houses. The first engrossed bill submitted to the governor fixed the normal fee for university students at \$125. The history of the bill showed the fee had been fixed at \$100 per year plus \$24 as incidental fees, making \$124 annually. The bill was signed by the governor by Thursday noon to become law.

SENSATIONAL WHITE SLAVE TRIAL OPENS; REFUSE WOMEN JURY

No Women Accepted on Jury in Trial of Camminetti and Diggs on Mann Act—Select Jury Carefully.

[BY ASSOCIATED PRESS.]
San Francisco, Aug. 6.—Maury I. Diggs, the young Sacramento architect, whose elopement to Reno, Nevada, with Miss Mithra Warrington in company with Drew Camminetti and Lola Norris precipitated a nationwide scandal, sat behind his attorneys in the United States district court today in his usual faultless attire. Facing him when court opened were the eleven jurors, temporarily passed yesterday. None of the defenses ten pre-emptory challenges had been exercised. Drew Camminetti sat with Diggs, among the attorneys who are conducting their defense. Among the scores of spectators yesterday, there were only three women. It developed after deputy marshal had called loudly through the corridors for B. E. Donaidson and N. J. Abbott that the two missing veniremen were women.

"It is just as well," said Judge Van Fleet, "no women would be accepted on the jury in this court."

It was rumored in court today that the wives whom Diggs and Camminetti deserted on their trip to Reno would attend the trial. When the taking of testimony begins, attorneys for both sides inquired particularly into the family life of the veniremen yesterday, the unflattering questions being: "Are you married?" "How many children have you?" "How old are they?" and "Are they boys or girls?" The eight married men temporarily passed have twenty-two children among them.

Are Advertisements Truthful?

They are. First because ninety per cent of business men are honorable men.

Second.—All advertisers have learned that it does not pay to fool the public.

Third.—Newspapers like The Gazette keep a strict censorship of their advertising columns and today are holding a question of a questionable character.

Merchants who advertise are building not for today but for the future. They expect to be in business for the years to come. They know they can only live by service.

When they advertise a thing they must have the goods, and the goods must be exactly as represented or it would be fatal.

There are no merchants in this city more deserving of your patronage than those who advertise in The Gazette.

GOVERNOR SULZER'S CAMPAIGN FUND HAS BEEN ENLARGED UPON

Five Hundred Dollars More Added To Fund by William F. McComb, Democratic National Committee Chairman.

New York, Aug. 6.—William F. McComb, chairman of the democratic national committee, contributed \$500 to Gov. Sulzer's campaign fund last fall. Governor Sulzer did not include it in his sworn statement of campaign contributions according to testimony today before the legislative investigating committee.

At a recent hearing the committee brought out that Abram I. Elkus had contributed \$500 and Joseph H. Schiff \$2500 to the fund, and that neither contribution had appeared in the sworn statement. Mr. McComb's check was produced today, was endorsed with the rubber stamp of Gov. Sulzer's signature and bore also the endorsement of L. A. Sarecky, Governor Sulzer's confidential clerk during the campaign. It was deposited in the Mutual Alliance Trust Company where Sarecky kept the campaign funds.

The total of Mr. Sarecky's deposits in the Mutual Alliance Trust Company from October 1, to November 12, was \$12,045 according to testimony today. It was added that the governor swore he had received only \$5,460.

Governor Sulzer's deposits in the Farmers' Loan and Trust Company between September 1 and January 1, were detailed by an official from that institution. The total deposits between these dates was \$24,195.

The balance in the bank January 1 was \$22,527. The balance in the Mutual Alliance Trust Company the day after election was \$190. The remainder of the \$12,045 deposited there had been checked out.

American Ambassador to Germany Leaves for Hamburg—Will Confer With Wilson.

[BY ASSOCIATED PRESS.]
Berlin, Germany, Aug. 6.—James W. Gerard, United States ambassador to Germany, with his wife and her sister, the Countess Antone Sigray, left for Hamburg today and will embark on the America for the United States tomorrow. Mr. Gerard succeeded, aided by the newspaper version of his house hunting difficulties, in finding two suitable houses for his residence in Berlin. One of them is in the aristocratic Tiergarten district and the other near the center of the city. The rental of each is about \$19,000 annually, this alone exceeding the ambassador's salary by \$1,500. Either one of the residences contain ample room for the embassy offices and private quarters, as well as for entertaining purposes. Mr. Gerard, before deciding on taking the lease of one of the houses, will discuss the situation with President Wilson and Secretary of State Bryan. George Von L. Meyer, former secretary of the navy, arrived last evening and was staying at the same hotel as the Gerards, conveyed to Mr. Gerard his sympathy over the ambassador's house hunting difficulties, telling him he had been subjected to similar experiences while he was ambassador in Rome and in St. Petersburg.

Schroeder-Stranz and his party, many of whom disappeared in Spitzbergen and some of whom are known to have perished.

The relief expedition was commanded by Captain Lerer and comprised five German explorers and a crew of eight sailors. They reached land safely and are continuing their search in the ship's sail boat and on sleds. They thus far have found no trace of the missing explorer or his companions.

READY TO PRESENT NEW CURRENCY BILL

COPIES OF REVISED MEASURE ARE SUBJECT TO CLOSE SCRUTINY TODAY.

TO INSIST ON ACTION

President Makes Plain His Purpose to Have the Bill Passed at Extra Session—Tariff Discussion in Senate.

[BY ASSOCIATED PRESS.]
Washington, Aug. 6.—Copies of the revised draft of the Glass currency bill containing amendments adopted late yesterday by democrats of the house currency committee were in circulation about the capitol today and were the subject of careful scrutiny by friends and opponents of the president's currency plan.

An amendment adopted by the house democrats making the federal reserve board to a partial extent bipartisan by having the appointive members divided between political parties is expected to meet opposition based on fear of "political control" of the proposed new currency system.

Agricultural Security. Antagonists of the Glass bill expect to direct their chief task in next Monday's democratic caucus toward securing amendments to establish an agricultural currency secured by actual surplus of corn, wheat and cotton. Friends of the currency measure are her urge that this proposed legislation be considered later and not as a part of the general currency reform plan.

President Wilson talked currency to a number of his callers today and make it plain that he intended to stick to his determination to have a bill passed at the extra session.

Tariff Discussion. Attacking the tariff bill in the senate today Senator Lippitt of Rhode Island declared that it discriminated against the luxuries of the New England mills in favor of the necessities. "In the bill made," he said, "I do not believe that in the consideration of these schedules the gentlemen of the south have had the part of the committee and the result is shown in the tariff. The products of the southern protector do not in the least object to that, but I also think they should have at least been willing to give consideration to the fact that the cotton trade, even if they are made in New England."

WISCONSIN EXPRESS CHARGES EFFECTED

Fifty Percent of Total Amount Carried Will Go At Cheaper Rates Result of State and National Orders.

[SPECIAL TO THE GAZETTE.]
Madison, Wis., Aug. 6.—That fifty percent of the express shipments in Wisconsin will go at cheaper rates than heretofore as a result of the combined orders for reduction made by the Wisconsin railroad commission and the interstate commerce commission, and the parcel post changes ordered by Secretary Burleson, is the statement of John H. Roemer, chairman of the Wisconsin commission. He says that the interstate commerce commission's order dovetails precisely with the reductions ordered by the Wisconsin commission last June.

"The Wisconsin railroad commission last June reduced express rates in Wisconsin approximately twenty percent," said Mr. Roemer. "This was followed last Monday by a similar decree by the interstate commerce commission reducing express rates throughout the United States approximately sixteen percent. Prior to the entering of either of these orders the express companies reported that the parcel post had captured thirty percent of their business. Now comes an order by Postmaster General Burleson that the parcel post rate be reduced and that packages of a weight of twenty pounds or under may be carried. These combined orders mean a tremendous saving to the shippers of Wisconsin. The fifty percent of the express packages shipped in Wisconsin are under twenty pounds, and when the orders of the Wisconsin commission and the interstate commerce commission go into effect Wisconsin shippers will be saved millions of dollars by the reductions.

Assistance Given. For the past two years the Wisconsin commission worked with Commissioner Lane on the express problem. Briefs were filed with the commission, and all material gathered by this commission was placed at the disposal of the interstate commerce commission. Wisconsin shippers will be saved millions of dollars by the reductions.

INTEREST SHOWN IN THE COOKING SCHOOL

MISS FLORENCE M. PEET IS SCHEDULED TO GIVE THE GAZETTE'S LECTURE DEMONSTRATIONS.

OPENS ON MONDAY

Knows How to Talk to All Classes.—Has Helpful Home Hints for Janesville Housewives.

Feminine readers of The Gazette and their friends have a real treat coming. They are going to be invited to attend a five-day course of culinary lecture-demonstrations given by The Gazette, under the personal direction of Miss Peet, the lecturer. The school will be in progress from August 11th to 15th, inclusive, and each day Miss Peet will have some helpful hints plus a menu of delicious foods to serve to her audience.

Charming Personality.
Miss Peet is a woman's woman. She is liked besides being admired. She is praised as much as her work. She makes friends wherever she goes and is never too busy to refuse to be interviewed by women seeking a betterment of home conditions. She has some constructive and original ideas regarding not only the kitchen and the house but the home as a whole. She has a special message for the young girl in the home. She preaches the gospel of Domestic Science and its great influence upon the future housewife. She will probably arrange for a special meeting with the domestic science department of the public schools.

Famous Recipes.
A good many Janesville women have probably heard of Miss Peet's "Baked Ice Cream." Miss Peet promises to bake some ice cream for Janesville housewives and to give them this recipe. Her other famous recipes will be printed daily in The Gazette. Further details will be printed regarding Miss Peet's Janesville engagement.

MAKE MIDNIGHT TRIP TO MAKE AN ARREST

Sheriff And Turnkey Drive Two Miles Beyond County House in Response to a Complaint.

Sheriff C. S. Whipple and Turnkey Walker made a midnight trip two or three miles north of the county farm last night to place under arrest Charles Krause, who this morning pleaded guilty in the municipal court to a charge of drunkenness and was sentenced to ten days in the county jail.

The call for the officers was telephoned about eleven o'clock and it was 1:30 o'clock this morning before they arrived at the jail with their prisoner. Complaint was made that Krause was abusing his wife and children, threatening to burn the house down, and do other violent deeds. When confronted this morning with the charge preferred by the Sheriff he first denied being drunk and said that he had wrenched his leg in getting out of a hay wagon, laming him so that his wife believed him intoxicated. He admitted drinking a half pint of whiskey but calmly denied that this was enough to make anyone drunk. After much evasion of the question and being informed that if he plead "not guilty" his wife, children and neighbors would be called into court to testify against him, he decided to plead guilty. Krause is the father of twelve children and he insisted that it was necessary to use some rough language in managing a family of that size. Neither did he take kindly to the suggestion of the judge that he leave liquor alone altogether.

Four other men plead guilty to charges of drunkenness before Judge Pitfield, they were: James Clark, Ash Nichols, John McChinley and Charles Graham. James Clark, become a reprobate, could not pay a fine of \$10 and costs or \$12.45 and was sentenced to fifteen days in jail. John McChinley another got eight days in lieu of a fine of \$3 and costs, and Ash Nichols from near Milton Junction was given a six day term. Charles Graham, a footville man, paid a fine of \$2 and costs and boarded the first train for home.

JANESVILLE LIQUOR MEN VIOLATING LAW?

Attorney General Rules it is Unlawful for Them to Solicit Orders and Furnish Booze in Dry Towns.

Does the law forbid a Janesville liquor dealer to go to Orono, a dry town, and there solicit and then returning to Janesville, load the stuff into his buzz-wagon and hustle back to Orono to shake the thirsts of his patrons?

This question has been put to Attorney General Owen by District Attorney Stanley Dunwiddie.

Attorney General Owen conveys the information that under the state of facts set forth in Mr. Dunwiddie's exhibit there would be a plain violation of the statutes and that the violator would be answerable thereunder.

In another opinion on a liquor case Attorney General Owen holds that where a retail and a wholesale liquor business are conducted in distinctly separated parts of the same building by the same man, the law requires a license for each. The inquiry for the day on this subject came from District Attorney Thomas C. Downs of Fond du Lac county.

Under his statement of facts, a brewery owned a building in which a saloon had operated for several years. This company built on addition to the line of the original span work and after completing the south half and transferring both railroad tracks to the Northwestern side and built up the piers. There remains to be done about two weeks' work as it is expected that the laying of the girders and stone slabs, which form the roadbed will take the greater portion of this week and the laying and ballasting of the tracks will consume over a week.

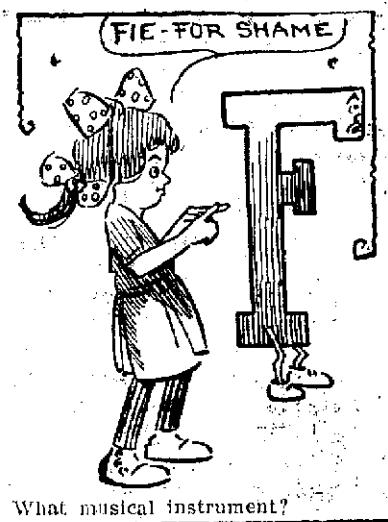

ARE READY TO LAY GIRDERS ON UPPER RAILROAD BRIDGE

Employees of the Cleary-White construction company have completed the erection of the five cement piers on the Chicago Milwaukee and St. Paul side of the new railroad bridge and are starting to lay the big fifty ton double deck girders across the spans. When the workmen constructed the Northwestern half of the bridge they extended the piers on the St. Paul side to the line of the original span work and after completing the south half and transferring both railroad tracks to the Northwestern side and built up the piers. There remains to be done about two weeks' work as it is expected that the laying of the girders and stone slabs, which form the roadbed will take the greater portion of this week and the laying and ballasting of the tracks will consume over a week.

GOVERNOR INSISTS UPON OPERATION OF MINES IN MICHIGAN STRIKE DISTRICT; OPERATORS WISH TO PLAY WAITING GAME

Michigan militia, in camp and in action in strike zone at Calumet, Mich.

The recent move on the part of Governor Ferris in insisting that the copper mine operators resume operations at once in the mines within the strike zone, near Calumet, has greatly displeased the operators, who wish to play a waiting game. There is very little profit in working the mines just now, owing to the weak copper market, and the operators would like nothing better than a three months' rest, with the state troops on hand to quell any violence.

High Cost of Living Solved.

Domestic science experts tell us that 40 per cent of the substances contained in food are lost when cooked on a wood or coal stove. Another experiment from the same source proves that it costs about 30 per cent more for fuel to cook on a wood or coal stove than it does on a gas range, and besides the loss of bulk of the food-stuffs, the loss in fuel, it takes 60 per cent longer to do the work on a wood or coal stove than on a gas range.

Now figure all these per cents, by any sort of solution, and you will see one reason why some of us are paying too much for what we get—and they are not gas range users. A gas range won't reduce the price of eggs, but it will make the eggs taste better, cook them quicker, and retain in them more of their bulk.

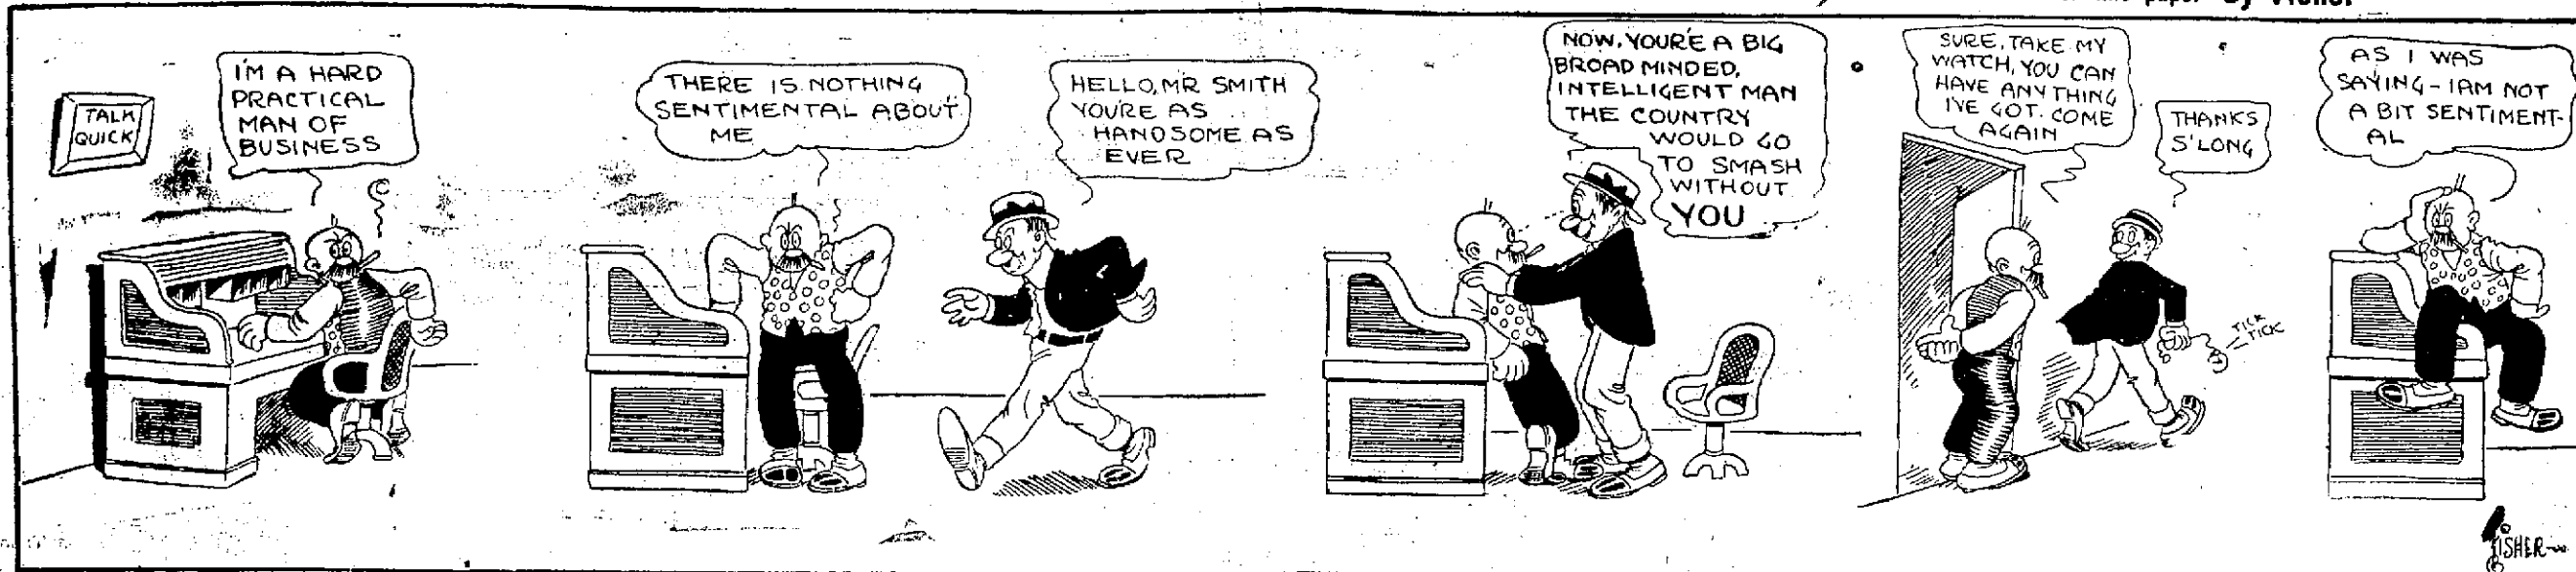

A gas range can be had for \$14.50—that's all—and we make connections free. You can pay for it in monthly installments of \$1.25 each.—This range is easily worth \$17. We want you to have one—come today.

JANESVILLE CARDS TO PLAY EDGERTON

Local Ball Tossers Cross Bats With Edgerton City Team Tomorrow Afternoon at Picnic.

Although the Janesville Cardinals met and trounced the Edgerton City team at the Janesville Driving Park in the early part of the season by a one-sided score, Captain Hell is confident that the Edgerton players will come back at the local men with a stronger lineup in hopes of evening matters up. The team is to play at the T. A. B. picnic and it is certain that they will have a number of followers from this city.

Either Crandall or Butters will oppose the Tobacco City men and it looks as if either man is capable of putting a crimp in the Edgerton sluggers' batting average. The Edgerton team is fully aware that they are not in the Card class and are enlisting outside aid and their strength is problematical. The cards lineup will be as follows: Wilson, c; Butters or Crandall, p; Hell, ss; Porter, 1b; Stewart, 2b; Butters or Crandall, 3b; G. and F. Burger and Sullivan, fielders.

With three of the crack Kenosha players in the lineup for the Janesville team in the play for the Yule cup at the Kenosha links yesterday afternoon, the Janesville team secured third place. Al Shaller and E. C. Baumann were the only local men on the team. The loaned players were George A. Yule. The Janesville score was twenty-four down.

The Kenosha club was again the winner of the cup for the fourth time in five years, with a score of seven down.

The Blue Mound club with a score of thirteen down took second place. The Beloit team failed to show form and were in the last position. Nine teams were entered.

BONESETTER REESE TO HELP ED. WALSH

Big Six, of the Chicago White Sox Has Sore Arm Preventing Him From Pitching.

Chicago, Ill., Aug. 6.—Ed Walsh star pitcher of the Chicago American league club whose arm has been sore since spring and who has taken part in only a few games this season left today to visit a specialist at Youngstown, O. He will undergo an operation to ascertain whether his career as a twirler is at an end. His last appearance with the White Sox was in Chicago on July 19, when he was obliged to retire after pitching two innings against the Philadelphia Athletics. His friends say that rest and treatment here have not helped his arm. He declared that if he finds himself unable to pitch again he will make an effort to become outfielder.

Courting a Wife.

"It's more important to court the missus when you've married her than before," said an English judge, addressing a man's meeting. "But," remarked a man in the audience, "you don't want to run after a 'bus' when you've caught it." "The missus isn't a 'bus,' was the only retort suggesting itself to the judge.

Another Complaint Recorded.

A woman journalist tells us that in a collection of recent poetry there are poems of dust, rags, fish and tea, and that "woman alone has failed to fan the poetic fires." She attributes it to the fact that woman has descended from her pedestal into the "burly burly of life."

NO LONGER NECESSARY TO GO NORTH TO AVOID HAY FEVER

Chiropractic, the Greatest of Modern Sciences, Removes THE CAUSE of HAY FEVER

You who are troubled with this distressing malady should see me at once. Your spine is out of order or the pollen floating through the air at this time of the year would not affect you. Owing to the impingement of the spinal nerve the nerve nourishment that goes to feed the mucous membranes of the nose and throat become weakened and susceptible to the irritating influence of the pollen in the atmosphere. If the subluxation at the spine is corrected and the normal amount of nerve force is allowed to flow to the mucous membranes they will regain their normal strength and atmospheric conditions will not trouble you.

SUFFERED ELEVEN YEARS WITH HAY FEVER

One of my patients, his name is on file at my office, suffered for eleven years with hay fever, was unable to breathe properly, sleep or attend his business. A very few of my Chiropractic Adjustments removed the nerve pressure and Nature effected a cure, so that for several years there has been no return. My Chiropractic Adjustments will make your Hay Fever vanish. You will have none this year if you nip the cause now. Have your spine examined at once and let me adjust the subluxation so that the Cause of Hay Fever will be removed.

AMASSADOR LIND.

If the public only realized the true
status of affairs in this critical
moment, they would be reaching a climax.
Castro seeking to again conquer
Venezuela, the boasted Monroe doc-
trine of Uncle Sam is in serious dan-
ger. Even the Chicago-Tribune that
has stood for everything that Wilson
has done thus far with words of
praise, takes occasion to severely
criticize Secretary Bryan as to his
appointment of former Governor Lind
of Minnesota as ambassador to Mex-
ico just at this time. The Tribune
says:

"The appointment of former Gov-
ernor Lind of Minnesota to act as
ambassador de facto to Mexico, is
not prima facie a happy one. The
fact that Mr. Lind was an 'original
Bryan man' may have weight with
the secretary of state, but it in no
way qualifies him to act in the dif-
ficult and delicate office to which he
has been assigned. Justice to Sec-
retary Bryan prompts the belief that
he had sounder grounds for his choice.
But the nation, in so critical a jun-
cture, would like to know what they
are."

"The facts known are that Mr. Lind
does not speak Spanish, and probably
not even diplomatic French. His hav-
ing been governor of a northern state
hardly can be thought to have pre-
pared him for diplomatic service in a
Spanish-American country, and we
believe he has had no diplomatic ser-
vice of any kind. Doubtless Mr. Lind
is an able and high minded man, but
no other government would dream of
selecting a representative upon
grounds of mere political favor or
private merit, regardless of previous
training and experience, or present
knowledge and equipment. Mr. Lind
an American of northern race, tem-
perament, and education, is dropped
suddenly in the midst of a complex
and dangerous situation involving
race qualities of thought and feeling,
susceptibilities, social, economic, and
military conditions to which he has
given no study, so far as is reported,
and of which he can learn nothing
save through an interpreter or resi-
dent speakers of English.

Perhaps Mr. Lind will achieve a
triumphant success, and certainly he
will go with the full support and best
wishes of the country. But on the
surface facts his selection suggests a
rather light hearted attitude toward
the difficulties of the problem and
the need for special qualifications.
Perhaps we have no one specially
fitted and a man must be chosen
simply for honesty and loyalty. Those
qualities certainly are necessary in
this crisis, but it is a sorry com-
mentary on our diplomatic system if
we have no one, in service or retired,
who is both specially equipped and
morally fit."

DUTIES OF NEWSPAPERS.

Charles H. Betts, who is editor of
the Lyons Republican, of Lyons, New
York, and who is one of the stock-
holders in the Hough Shade Corpora-
tion of this city, as well as being
president of the Western New York
Publishers' association, makes some
pertinent remarks on the subject of
the duties of newspapers. Mr. Betts
takes the stand that every good, hon-
est newspaper owner should take a
view of which the public should be
cognizant so that there can be no
mistake in the matter. The editorial
columns of the newspaper should
voice the true sentiments, the true
standards of the paper itself. Mr.
Betts said in part in a recent ad-
dress:

"I want to say a few words on the
subject of conducting a newspaper

and on the duties and responsibil-
ities of an editor. There is a wide
difference of opinion on this question.
It is contended by some that an ed-
itor should conduct his paper in such
a way as simply to reflect but not in-
fluence public opinion. They contend
that an editor should not have pro-
nounced opinions of his own, but
should make his paper an organ to
record the popular sentiment of the
hour. This is the general and per-
haps the popular view. This means
that you must be content to float on
the surface of the stream of public
opinion instead of helping to create
and direct its current.

"I do not agree with this view. An
editor is or should be a teacher. He
should first, by patient study and in-
vestigation, inform and enlighten his
own mind so that he can inform and
enlighten the people.

"I do not believe that the editor
should make his paper simply the re-
corder of uninformed sentiment or
copy the mistakes and errors of his
contemporaries. Every editor should
aim to give his paper individuality.
He should try to make it a leader and
educator along some particular line
of thought. He should cover thor-
oughly the news field and fill his col-
umns with as many items as possible
of human interest, but his paper
should stand for something.

"The editor should study public
questions, and, after due considera-
tion, when he has arrived at a con-
clusion that he believes to be right,
he should announce it without fear or
favor and without regard to conse-
quences.

"He will make enemies, but it is
his duty to make enemies. He who
makes strong enemies is usually able
to balance things by making strong
friends. It is such men who ac-
complish results.

"If he does anything worth while
he must hit some one. He must hit
some sham or fraud. He must op-
pose some interest.

"But when a man has succeeded in
vindicting his position and his
achievements have finally won the ap-
proval of the thoughtful and intelli-
gent, his enemies frequently become
his friends, while he makes new ene-
mies by new achievements.

"In the state of affairs we have reached
the state of anarchy. The rule of the
age discarded system of direct gov-
ernment, as involved in direct nomi-
nations, the initiative, the referen-
dum and the recall, a system of gov-
ernment that led to the ruin of all
the ancient republics, is a long and a
dangerous step backward. It is re-
action and not progress.

"Every student of political science
knows that all of these old political
diseases now being brought forward
and presented to the people as new
remedies were discarded more than a
hundred years ago by enlightened
statesmanship and advancing civiliza-
tion.

"All of our modern progressives
who are advocating a return to the
old system of a pure or direct
democracy, which in the last analysis
means mobocracy, are masquerading
as reformers in the soiled and blood-
stained garments that barbarians wore.

"The most famous recall case in
history was when the mob recalled
the decision of Plato and forced the
crucifixion of Christ. The next most
famous case was when the same kind
of enlightened judges forced hemlock
down the throat of Socrates.

"If the people have not the intelli-
gence and judgment to select honest
and capable representatives to con-
duct the government where are they
to acquire the necessary intelligence
to conduct the government directly
themselves? If the people are in-
competent to select representatives is
this the very reason why they are
competent to directly conduct the
government?"

Next week Janesville will hold its
three days race meet. The opening
dates of the Wisconsin Grand Cir-
cuit, which has attracted some of the
best stables in the middle west,
starts at Janesville, and everything is
ready for the revival of the sport of
kings.

Perhaps if the street commissioner
would take a walk through some of
the residential sections of the city in-
stead of driving about in his car, he
would find numerous old tar pits
and decrepit wooden ones that could
well be repaired or cement walks laid
before cold weather sets in.

Residents of Rock county are
showing their appreciation of the
gifts of nature more and more each
year and soon this city will be listed
among the summer resorts of the
northwest.

Janesville has appreciated the
chautauqua by fairly good attendance
at the various lectures and entertain-
ments and next year's sessions are
already assured.

This is great corn weather and
some of the Gazette corn contestants
are watching their crops grow in an-
ticipation of the awarding of the
prizes offered.

With bumper corn crops reported
the feared panic will be delayed at
least another year despite the fact
the money kings predict dire disas-
ters.

It is a grand, good work, this
bringing the children of the crowded
tenement districts of Chicago into the
open country for a vacation week.

SPUR-MOMENT

The Diary of a Bonehead.
When I ride in an automobile after
this it will be as an owner and not
as a passenger. The driving events
of this day have quite cured me of
ever taking passage on another man's
car. We had a puncture when we
had reached a point only nine miles
from town this morning on a 30-mile
trip.

The owner put in the new inner
tube and then turned the pump over
to me. Owners always take a husky
passenger if they can. They are afraid
labor must be divided. It requires
skill to insert an inner tube and
pumping up the tire requires only
brute strength. After the owner has
put in the inner tube his share of
the labor ends and he must climb
into the car and entertain the ladies
while the husky passenger pumps.
We had our puncture on a strip of

road that was devoid of shade as
is the neck of a cleck. The bony bar-
tender. Punctures always happen in a
sunny road four miles from a tree.
Friend Owner entertained the la-
dies this morning while I, in the
capacity of husky passenger, did the
pumping. The more I pumped, the
jollier Friend Owner became. He
told of various pumping exploits in
which he figured as star performer
before he owned a car of his own.
He claimed that he had once pump-
ed up a tire in three minutes.

I began pumping at nine o'clock
and by ten I had pumped enough
wind into that tire to fill all the bal-
loons in a Gordon Bennett cup race
and to turn all of the windmills in
the state of Illinois until they had
pumped enough water to have filled
the entire chain of lakes. After I
had pumped one hour my friend put
on his cute little testeter and an-
nounced that there was only thirty
pounds in the tire, whereas there
would have to be eighty at the least
before we could proceed.

"Finest tire I ever pumped. I have
ever had with me on a trip," he said as I
fell to the task again with anger
rapidly rising above the danger point
and flooding my mental carburetor
I knew he had told that to every
passenger who had ever pumped for
him.

Up and down, up and down, I
pumped until the nurse in the middle
of my back began to squeak like an
old barnyard gate and by eleven
o'clock I had got her up to sixty
pounds, according to the testeter. I
knew I had pumped over 118,000
pounds into that tire, if I had pump-
ed an ounce, I had pumped in all
of the wind in that township, and
left the natives gasping for breath.

When I had done, it created a vac-
uum and the wind poured in from the
surrounding country to the extent
that several corncribs were blown
over and a meeting house was all but
unroofed. If the minister had been
there he would have been unroofed.
By noon I hadn't left enough air in
that section of the country to keep
a two-months-old child alive for a
minute and a half. My friend tested
it and found that we had only sev-
enty-five pounds, but said he would
go ahead with that. They lifted my
wilted form into the car and proceed-
ed.

We went about three rods when
one of the rear tires began to sag and
then quit entirely.

"Good afternoon," said I politely,
as I sprang out of the back seat and
beat it over the back trail for home.
So far as I know, Friend Owner is
still there yet, waiting for a pump-
er. What he needs is a handcar
crew that can pump forty-seven miles
and still take an interest in life.

What I want to know is what be-
comes of all the wind that you pump
into a tire, when each upward stroke
weighs about forty pounds?

A Difference.

One hammock will do,
But after they're married
They've got to have two.

Heart to Heart
Talks
By JAMES A. EDGERTON

A RAINY DAY.
As I write this it is raining. The
water just outside my window is
plunking down from a leak in the
eaves.

Rainy days have their uses, but for
myself I prefer to invest in sunshine.

On a rainy day, I can almost believe
in infant damnation, whereas when
the sun is shining it is utterly repug-
nant.

However, I did not start out to talk
of the weather nor agnula of theology.
Those things are only thrown in as
background.

So we will literally turn our backs on
both, throw a fresh log on the hearth,
put up the most comfortable chair,
light our pipes and talk things over.

You want to get on in the world.
Well, that is just what I want you to
do. You can't get on any too fast or
too far to suit me so long as you play
the game square.

Are you playing it square? Think it
over. You need not tell me, but you
had better not try to deceive yourself.

We will assume that you are. I do
not believe a man like you could long
be content to play it any other way.

Now, since you play fair, why don't
you get ahead faster? Maybe you
don't work hard enough.

You can't get anywhere unless you
"stir your stumps," as the saying goes.
The only way to arrive is to move.

Assuming, however, that you work
hard, what is the trouble? Possibly
you do not use enough intelligence.

Outwardly all men look pretty much
alike. They have the same kind of
hands and legs, faces and bodies.
They are not widely different in phy-
sical characteristics.

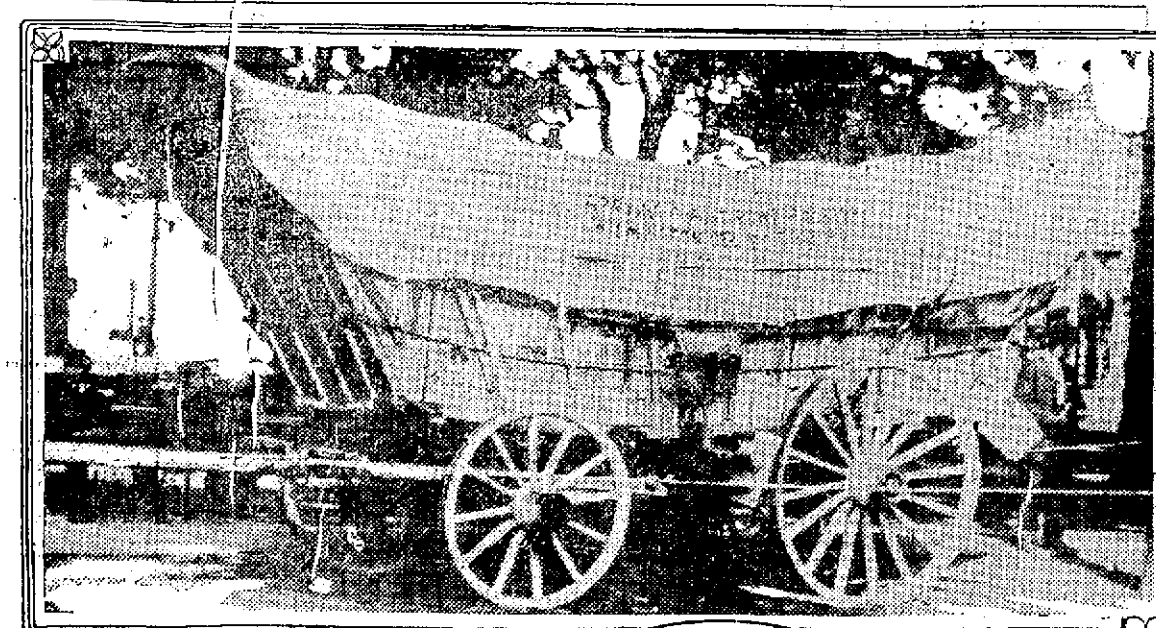

What is it, then, that differentiates
them, that makes one a world celeb-
rity and the other a clochopper? Why,
it is a mere matter of brains. The
winner is bound to find out the truth
about things, while the other takes
hearsay or prejudice or some other
half baked or inadequate process.

You have got to get right down to
business and think things out.

But—
If you play fair and work and think,
and if you do all these hard enough,
nobody can stop you.

One Good Deed Assured.

good thing in his life, even if he did

Mothers! Have Your Children Worms?
Are they feverish, restless, nervous,
irritable, dizzy or constipated. Do
they continually pick their nose or
grin their teeth? Have they cramp-
ing pains, irregular and nervous ap-
petite? These are all signs of worms.
Worms not only cause your child suf-
fering, but stunt his mind and growth.
Give Kickapoo Worm Killer at once.
It kills and removes the worms. It

LITTLE RUSSIAN CZAREVITCH RECOVERS
HEALTH; NOW SEEMS AS WELL AS EVER

Czarevitch and his mother.

It is reported that the little Czare-
vitch, whose ill-health recently
caused great concern in the royal
household, is now about again and
seems as well as ever. He is the
youngest of a family of five, the
other children being girls, and is the
idol of his mother.

The Czarevitch's titles, needless to
say, are many; from that of Hetman
of all the Cossacks to Chief of the

"Alexei" Military School of Moscow;
from that of Chief of the Fourth
Battalion of Horse Artillery, of the
Guard to that of Chief of the Regi-
ment of the Horse Grenadiers of the
Guard, and so on. He is a Knight
of the Order of St. Andrew, and of
the Order of the Seraphim.

The accompanying picture of the
Czarevitch and his mother is the
most recent that has been taken and
has just reached this country.

THE MARTYRDOM OF
EMILY DAVISON.

The Moving Picture World
says of this film:
"What is undoubtedly the
most remarkable topical film
ever brought to this country
reached New York a few days
ago on the Gaumont Co. train
of London. This film covered
the recent derby race at Epsom
Downs, in which Emily Davison,
a militant suffragette, threw
King George's horse and sus-
tained fatal injuries."
On the occasion of this year's
Derby the Gaumont Company
had fifteen cameramen stationed
on the course, two being located
at the famous Tattenham Cor-
ner. This is the most interest-
ing spot in the whole Derby
course, and here it was that
Miss Davison chose to sacrifice
her life in order to draw at-
tention to the cause she advocated.
As the horses rounded Tat-
tenham Corner, two Gaumont
men were busy grinding out film.
In their pictures the first batch
of horses goes thundering by;
suddenly a woman in dark
clothes springs from the rail and
as the last three horses appear,
quickly, grabs the bridle of the
King's entry, throwing the horse
a complete somersault, precipi-
tating the jockey's headlong
through the air, falling herself
under the hoofs of the horses
that follow. Every incident of
the unfortunate affair is accu-
rately recorded in the most re-
markable series of motion pic-
tures ever taken of a current
event. Every London illustrat-
ed paper used clips from the
Gaumont film in distributing the
episode.

BRIEF LOCAL NEWS.

Attention G. A. R.: Special meeting of the Post this evening at 7:30 to make arrangements to attend the funeral of our late comrade, H. B. Walker. D. S. Cummings, Commander.

Woodmen Lecturer: John F. Harris of Chicago, national lecturer of the Woodmen, will give the address at the joint picnic of Janesville and Beloit lodges at Yost Park Saturday afternoon, Aug. 9. He will have some interesting things to say concerning the order.

To Open: James Smith, for some time employed at the Flynn restaurant, announces his plans to re-open the European hotel on Wall street which has been closed for the past two months. Chas. Snyder was the former landlord.

Convention Delegates: At a meeting of the F. A. A. held last evening at the Caledonian rooms, Mr. and Mrs. Kruse and Mrs. Balsey were elected delegates to the district convention of the lodge at Madison.

To Address Hibernians: Prof. M. G. Rohan of Milwaukee, will give an address to the members of the A. O. H. at the regular meeting this evening at their hall. A large attendance is expected.

Visit Kansas: Frank and Carson Baumgardner have left for Kansas, where they will visit their old home and will spend their vacation visiting with their uncle Isaac Baumgardner at Pittsburg, Kansas, for a week. From there they are going to Tulsa, Okla., to spend a week with friends and relatives. They will also go to Higgins, where they will visit their grandmother before returning to their home in this city.

Council Proceedings: The report of the stone crusher output during the last two weeks was accepted and a sidewalk ordered laid on the north side of Prospect avenue, opposite lot 1, Chapman's addition at the meeting of the city council held yesterday afternoon.

Fire Alarm Box Removed: Fire alarm box No. 7, stationed at the west end of the Milwaukee street bridge, was removed by Chief Klein and an assistant this afternoon. The box was placed on the recommendation of ex-alderman and it was from it that was sent in the alarm for the biggest fire in the history of Janesville, that of April 1, 1913. Many other alarms have also been sent in from this box.

Shift in Session: The income tax board of review was still in session at the court house today. No information is given out as to the number of complaints entered in regard to the assessments.

JANESVILLE HIBERNIANS TO PICNIC AT MADISON

There was a large delegation of Janesville Hibernians who left this morning for Madison where they attended the annual A. O. H. picnic held at Esther Beach. Members of the order from all parts of the state were expected to attend and addresses of interest were given by J. L. O'Connor, Judge John C. Farrell and Michael Rohan, all of Milwaukee and W. W. of Janesville. There was a long program of athletic events calculated to provide ample entertainment for the guests.

FATHERS AND KERCH GO TO ROCK ISLAND FOR A CONFERENCE

DELAYS BRIDGE WORK

MAYOR AND CITY ENGINEER HOLD A CONSULTATION WITH GOVERNMENT OFFICIALS.

Could Construction Company Ready to Start Operations Told to Await Return of City Officials.

Mayor James A. Fathers and City Engineer C. V. Kerch left late yesterday afternoon for Rock Island, Ill., where they held a conference today with the government engineers regarding the construction of the bridge over Rock river at Milwaukee street.

In the meantime the foreman of the Gould Construction Company's force, already on the ground to begin operations, received orders not to proceed with the work until after the officials had returned to this city.

This delay in the commencement of the bridge work comes as a result of the visit to this city, on Saturday last of Major Chas. Keller of Rock Island and United States Engineer C. E. Reeves of Sterling, who made an inspection of the present Milwaukee street bridge and advised Mayor Fathers that something in the proposed new bridge to the war department for approval.

It has become evident to the city authorities that the United States government has jurisdiction relative to the construction of bridges over Rock river, and it will be necessary to observe the regulations of the federal statutes on the matter.

It is quite possible that this may result in the delay of the commencement of construction, but this will be unavoidable. Mayor Fathers has been anxious to continue the work if possible while the matter is pleaded before the federal authorities and it is probable that this point was discussed at the conference today.

Acting City Attorney John Cunningham has been investigating the federal acts in the matter of bridges and made his report to the mayor yesterday. Subsequent to this report it is supposed, may have prompted the trip to Rock Island.

The following sections are part of the River and Harbor act of March 3, 1899, chapter 1089.

Section 9 (Authority for the construction of bridges, dams, etc.) That it shall not be lawful to construct or commence construction of any bridge, dam, dike, or causeway over in any port, roadstead, harbor, canal, navigable river or other navigable water of the United States, until the consent of Congress to the building of such structure shall have been obtained, and until the plans for the same shall have been submitted to and approved by the Chief of Engineers and the Secretary of War.

Section 10 (Authority for the construction of bridges, dams, etc.) That it shall not be lawful to commence construction of any bridge, dam, dike, or causeway over in any port, roadstead, harbor, canal, navigable river or other navigable water of the United States, until the consent of Congress to the building of such structure shall have been obtained, and until the plans for the same shall have been submitted to and approved by the Chief of Engineers and the Secretary of War.

Section 11 (Authority for the construction of bridges, dams, etc.) That it shall not be lawful to commence construction of any bridge, dam, dike, or causeway over in any port, roadstead, harbor, canal, navigable river or other navigable water of the United States, until the consent of Congress to the building of such structure shall have been obtained, and until the plans for the same shall have been submitted to and approved by the Chief of Engineers and the Secretary of War.

Section 12 (Penalty for violation.) That every person and every corporation that shall violate any of the provisions of sections nine, ten and eleven of this act, or on conviction thereof shall be punished by a fine not exceeding twenty-five hundred dollars nor less than five hundred dollars, or by imprisonment in the city or county jail for a term not exceeding one year, or by both punishments, in the discretion of the court. And further the removal of any structure or parts of structures erected in violation of the provisions of said section may be ordered by the injunction of any circuit court exercising jurisdiction in any district in which such structure may exist, and proper proceedings to this end may be instituted under the direction of the Attorney General of the United States.

JANESVILLE SENDS A BIG DELEGATION

Several Hundred Bower City Residents Attracted by T. A. & B. Picnic at Edgerton Today.

Janesville was represented by a crowd of two or three hundred persons at the first day of the annual T. A. & B. society picnic at Edgerton today. MILTON MAN MISSING

FOLLOWING ALLEGED ATTACK ON JULY 24

Charles Arner, of Milton, D. appeared on July 24 after alleged beating by a group of men.

Charles Arner, a Milton man, has been missing since July 24 and his brothers and friends fear that some accident or misfortune has befallen him. They do not learn of his disappearance until about two days ago, they at once informed Sheriff Whipple who has since been engaged in a search for him.

On making inquiries among the neighbors the Mr. Popple, who employed him, they learned that on July 24 Arner returned home after a two days' absence. He is supposed to have retired for not long afterward and they do not know of his whereabouts since that time.

Arner is alleged to have been carrying a club which he used to throw at the men who were attacking him. It is feared that he was struck over the head and demented so that he is wandering aimlessly, and that he has had even a worse fate.

Brothers of Arner searched the corn fields in the vicinity for two days without success and yesterday Sheriff Whipple worked from 6 in the morning until evening. At one neighbor he learned that Arner had been seen on the night he disappeared. He came to the well and pumped himself a drink and after remarking that he had been mixed up in a scrape he again disappeared.

Sheriff Whipple was at Edgerton today and hoped to find some trace of him in that locality.

Morris Lewis Makes Out Complaint—Claims That Stevens Attacked Him in Office Yesterday.

That he was attacked in his own office yesterday afternoon by Frank L. Stevens was the complaint made later yesterday by Morris Lewis, a furrier, who is just moving out of rooms at 105 East Milwaukee street.

At once had Mr. Stevens arrested on a charge of assault and battery and the latter through his attorney, M. O. Monat, this morning in the municipal court, pleaded guilty to the charge.

The complaint was represented by John L. Fisher. On the motion of John L. Fisher, trial of the case was adjourned until ten o'clock next Monday.

Attorney M. O. Monat asked that the complainant be ordered to give security for costs of the case, and his motion was granted by Judge Field.

The defense will endeavor to prove that the action is of a malicious character.

According to the statement of Mr. Lewis, he had a dispute over a lease with Mr. Stevens on the street. As he turned to go up the stairs to his office Mr. Stevens followed him. Lewis closed the door behind him and when Stevens found he could not open it he broke the large pane of glass with his fist. The force of the blow was sufficient to open the door and then it is alleged, Mr. Stevens struck Lewis three blows on the head and the order to leave the office.

When in court this morning Mr. Stevens calmly seated himself with a cigar in his mouth, his hat on his head and his feet on a table. Judge Field informed him that if he did not at once remove his hat he would fine him for contempt of court.

Mr. Stevens at once obeyed the order, declared he had no intention of violating court decorum, and asked the pardon of the judge.

BURGLARS BREAK IN AT PUBLIC LIBRARY

Get Away With Two Dollars And Change And Some Stamps—Force Lock on Window of Coal Bin.

Discovery that the public library had been burglarized was made this morning when the building was opened. Drawers had been pulled out in the desks and cabinets, all the boxes in them opened and examined and other evidence of a thorough search of the premises found.

Two dollars in change had been taken from the drawer of a desk in the children's room, and a small quantity of postage stamps, but nothing else was found missing.

No considerable quantity of money is kept on hand at the library and most of it is locked up in the safe every night. There was no evidence that the safe had been tampered with.

The doors of the rooms upstairs had been opened. Entrance to the building had been secured through the basement window, the lock on which had been broken through prying with some instrument. There were finger marks on the window-pane. Junior McCarty made inquiry at the blacksmith shop on Park street to the rear of the library and learned that no tools had been missed there.

Plowing at Night.

New South Wales has adopted the California idea of plowing at night. For this purpose two powerful acetylene headlights are attached to the traction engine which draws the plows and the ground is so well and brilliantly lighted that the operator can work over the field quite as well as by daylight.

MOTOR COMPANY HAS

MOVED TO THE NEW BUILDING ERECTED

Big Garage Completed And is Now Occupied—Model Equipment Installed.

With the completion of the new building erected for the Janesville Motor Company, another substantial addition to Janesville's business industries is established. With entrances facing on both Main and Bluff streets, the new structure is two hundred and fifty feet from street to street and consists of the Main street side of two floors, fifty by ninety-five feet and on Bluff street of three floors, including basement forty-seven by eighty-four feet.

The Janesville Motor Company will occupy the two buildings with the exception of the third floor of Bluff street building which will be rented for light manufacturing.

Approximately the buildings cost somewhere around thirty thousand dollars. The floor supports are of thirty inch eye beams of steel and the floors of the Bluff street basement and of the Main street building are of concrete. The flooring of the upper stories is of fir laid at right angles making it most solid and able to withstand any weight or jar. It is steam heated and electric lighted throughout and is one of the lightest buildings in the city, the side walls being studded with windows with large substantial panes of glass.

The entrance to the repair shop, which has been moved from the Main street, is on Bluff street, a gradual incline of but a few feet, doing away with the necessity for an elevator.

This floor is on the same level as the second floor of the Main street building and the two buildings are connected with each other by wide doors.

The basement of the Bluff street structure is light and airy and will be used as a storage room. It opens onto a small cement courtyard which connects directly with the Main street.

building and also has an exit on Bluff street.

Taking it all in all over a hundred and fifty cars can be accommodated in the new building. Mr. Decker will shortly begin the remodeling of his office which will face Main street and occupy half the store front, the remainder of the space being used for an alley way for cars. Plans are also under way for the remodeling of the remainder of the upper stories of the Main street building which is four stories in front and runs half way back through the lot.

Mr. Decker has under consideration a proposition from a fraternal organization to remodel the structure for a complete club rooms and also has been approached by a hotel man to remodel it into a hotel with some forty

rooms. This was the original plan but it is possible that it will be made into apartments of three and four rooms each with a kitchenette which would find ready rental. Nothing will be done with this part of the building until next year.

The buildings are constructed of brick, steel and concrete, the only woodwork being the windows and floors on the second and third stories. The Bluff street front is most ornamental and a handsome building.

FOUNDER OF OSTEOPATHY
EIGHTY-FIVE YEARS OLD

[SPECIAL TO THE GAZETTE.]
Kirkville, Mo., Aug. 6.—Many messages of greeting were received here today to remind Dr. Andrew T. Still, famous as the founder of osteopathy, that this was his eighty-fifth birthday anniversary. Dr. Still was born in Lee county, Virginia, Aug. 6, 1828. He served in the civil war as surgeon of a Kansas cavalry regiment and after the war became post surgeon at the Shawnee reservation. It was here that the study of the human bone structure, especially of the spine, was forced upon him by the death of his two little daughters, of spinal meningitis. It was in 1874, when living at Baldwin, Kas., that he abandoned traditional medical routine and began to practice osteopathy as it is understood today. He founded a school here to teach the science and has lived to see it taken up by more than 10,000 practitioners in America, Europe and other parts of the world.

WEATHER CONDITIONS

The area of low barometer that was in Ontario yesterday has moved rapidly eastward and is now in the St. Lawrence valley. It was attended by light rains in the upper lake region and upper Mississippi valley.

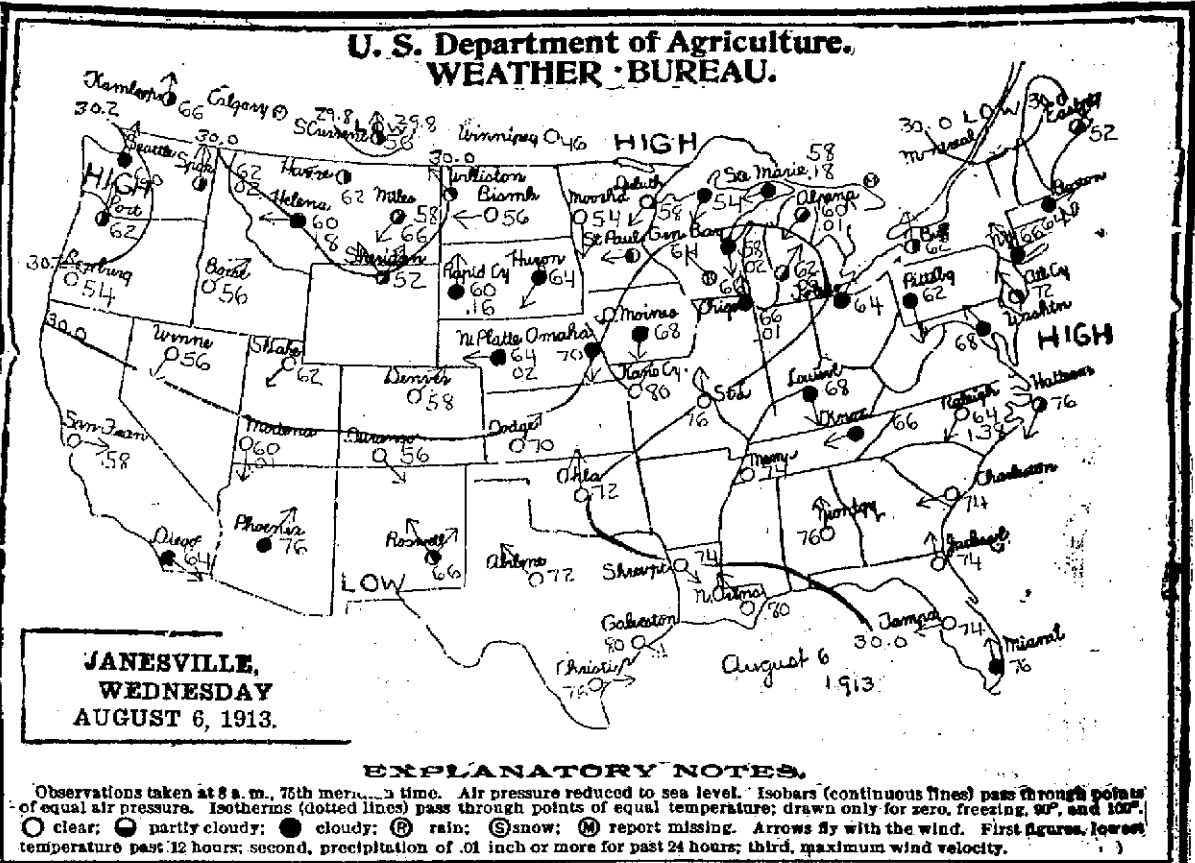

A secondary depression formed in connection with the foregoing yesterday and remains in the Middle West, where it is attended by light rains. Another area of low barometer is moving eastward across the Canadian Rockies, and is attended by rain in the Northern Rocky Mountain region. It is generally fair in the East and South, except that a local rain at Raleigh, N. C., amounted to 1.23 inches.

Lafayette Young.

Ex-Senator Lafayette Young of Iowa, who is now in Europe, reports that he has been deeply impressed by what he has seen in the Balkan countries. He declares: "The Balkans give the big nations of Europe an opportunity to do more than look sanctified and offer prayers. When snow comes again starving people of the Balkans will be chargeable to Europe. The crops are rotting in the fields. When cold weather comes the people of the Balkans will not even have dry bread to eat."

Found That Hogs Could Jump.
A Geary county (Kan.) farmer built a "hog-tight" fence around his feed lot just before he received a big shipment of Arkansas "razorbacks." The next morning the hogs were scattered all over the county. It was found that most of them could clear the fence with a standing jump, although some of them were compelled to make a running jump of it. But all of them could jump it.

WOMAN'S PAGE

The Evening Chit-Chat
BY RUTH CAMERON

WHEN Jacob Riss said that one half the world didn't know how the other half lived I think he spoke a bigger truth than he knew.

For there are many other classes of people who know as little each, how the other lives, as do the rich and poor.

Give upon a time a woman whose life had been spent burning a perpetual sacrifice of energy and time, and intellectual interests, and friendship with her husband and children and health and nervous energy before the altar of the house immaculate and the routine all important, but rather too large a quantity of the last two ingredients into the sacrificial fire, and as a consequence, had a nervous breakdown, and was ordered by the doctor to give up housekeeping for at least a year.

Being a family physician, the doctor took the liberty of suggesting that a friend of his, who had a large home in a pleasant suburb, would be willing to lodge this woman and her family. I have since felt sure that this wise doctor was giving a prescription in that advice, and was thinking of Jacob Riss' philosophy, even if he didn't know it himself.

For the doctor's friend was "the other half of the world" to this woman. She was one of those wives to whom housekeeping is not the whole business of life. She kept her home reasonably clean and she always served wholesome meals to her children, but she possessed her possessions instead of being possessed by them, and she fitted the routine to her life instead of her life to the routine. She was very fond of music and sometimes after breakfast she would play Beethoven's Second Symphony before doing the dishes.

Her husband was a newspaper man, and she kept in touch with the news even if she didn't dust the house every day. On Saturday morning, when her oldest boy was to be in an important football game, she left the cooking until afternoon, that she might witness that game.

Of course she sometimes erred on the side of neglecting her housework for things that she liked better, but surely no more than the first woman erred on the side of neglecting other important things because she liked housework better.

It was a tremendous experience for the visitor. She had vaguely known that such women existed, but she had never come into such close contact with the "other half." At first, of course, she was horrified; then she saw how much happiness the "other half" got out of life, and she actually began to wonder; and the wonder grew so strong and went so deep that it really changed her outlook of life, and she went back to her home a wiser as well as a healthier woman.

What a lot of us there are who would be benefited by finding out how the other half lives.

DOMESTIC SCIENCE DEPARTMENT

born to it. Most women and girls concentrate on clothes and that is why they can't plan or make a better dress than plan or cook a better meal. An inexperienced cook may not get the first time perfect results. She can get any number of accurate recipes, with measurements, utensils, directions, etc., she cannot out the quantities as given exactly, not "pretty near," but EXACTLY, put them together as directed and cook her food according to instructions, but forgetting to still concentrate on the cooking or baking until FINISHED. Good food is bound to come from such centered effort. That's all there is to it.

Remember that to be a successful business man he has to know his work from the bottom up. Why shouldn't you? Home-making is not play, but it is far better; it is worth while, and it is work, and it is healthy and wholesome; and that is the cooking class if one faithfully attended during the first year, plays a very important part in the final outcome. Make a fresh start and your husband will soon have one of the best cooks ever "made," as we are very few like Tony's "just born."

Cream of Tomato Soup.
Material: Milk, one quart; fresh or canned tomatoes, one-half pint; bay leaf, one large; butter, two tablespoons; flour, two tablespoons; mace, one blade; salt, one teaspoonful; sugar, one teaspoonful; soda, one-fourth teaspoonful; parsley (chopped), one tablespoonful; paprika, one pinch.

Utensils: Double boiler, tablespoon, teaspoon, sieve, soup tureen, sauce pan.

Directions: Put the tomatoes into sauce pan with the bay leaf and mace. Cover and simmer slowly for fifteen minutes. Put the milk into a double boiler. Rub the butter and flour together, adding a little of the milk until smooth. Pour into the milk, stirring all the while until it thickens. Strain the tomatoes into a soup tureen, add the sugar, soda, salt and pepper, then pour in the creamy mixture all at once, stirring very gently until well blended. Sprinkle the parsley over the top and serve at once. This soup should never be thick, but of a light cream consistency. A teaspoonful of whipped cream may be served on top.

HEART and HOME PROBLEMS
BY MRS. ELIZABETH THOMPSON

Dear Mrs. Thompson: (1) I have a set of blue wolf furs bought late last winter, which I have kept hanging in my bed room. I have given them an airing and sun many times, but never examined them closely until yesterday and I found two different kinds of eggs on the fur. One is very small and black and is fastened to the fur like a nit. Some of them when pressed between the thumb and nail will crack, others will not and are apparently flat.

The other kind is white and about the size of an ant's egg, but are not fastened so securely to the hair, these are easily broken and are soft inside. I found also two insects, one larger than the other, the larger one being a dark brown, while the other was a light yellow. They both resemble a gnat but were much larger and could fly.

(2) Should birthday postcards be answered by sending a card of thanks?

I'm afraid the moths have invaded your furs. Give them a thorough brushing and cleaning, then rub them well with camphor and put them away wrapped in newspaper. (2) It is not necessary to acknowledge a birthday postcard, but undoubtedly the person who sent it would be pleased if you would send a little "thank you."

Dear Mrs. Thompson: (1) I am a young girl seventeen years of age and deeply in love with a fellow three years my senior. He tells me he

loves me best of all his friends, but still goes with another girl. How can I win his love?

(2) There is another fellow about twenty-five years of age, and he tells me I am the only girl he fancies. Do you think him too old for me? Would you pay any attention to him if you were me or would you go with the younger fellow I mentioned?

ANXIOUS.

If you are not engaged to him, my dear, he has a perfect right to go with other girls. The only way to sure he loves you is when he asks you to marry him. Otherwise don't pay too much attention to him.

(2) You are too young to go with anybody steadily, and you really don't love anybody yet "for keeps." Just be nice to the men you know and in time the right one will come along.

Dear Mrs. Thompson: (1) What is good to develop the bust?

(2) What is good to keep hair from falling out?

ANXIOUS.

Massage the bust gently with cocoa butter every day. Best of all, take deep breathing exercises, stand with your chin well up and your chest raised high. Swing your arms

well when you walk and eat nourishing food.

(2) Rub a little castor oil into the scalp. Brush the hair well with a clean brush every day. Give the hair an egg shampoo once a month.

Dear Mrs. Thompson: I am a young married woman and go out with my husband a great deal, but I am very jealous of him. It hurts me if I see him speak to a girl or look at one. He used to be the same to me, but he has changed so much since we have a baby girl. Please advise me what to do. CONSTANT READER.

Every woman who is jealous of her husband really thinks she isn't good enough for him. Spruce up, dress prettily, look happy, enjoy your husband's society and don't expect him to be jealous of you. Then you will both be happy. If your husband knows you are jealous of him that is probably the main reason he is no longer jealous of you.

SOME GOOD EATINGS.

An ideal breakfast dish or for a cool night when something hot is relished is:

Rice Waffles.—To a cup of freshly boiled rice add two tablespoonfuls of butter and the yolks of three well beaten eggs. Add two cups of sour milk or cream, a teaspoonful of salt and a teaspoonful of soda. Combine the two mixtures, add enough flour to make a good drop batter and fold in the whites of three eggs beaten stiff. Bake on a well greased waffle iron. Serve with maple syrup.

Cheese Puff.—Melt a tablespoonful of butter in a saucepan, stir in two tablespoonfuls of flour and when well blended add a half pint of milk, cook until smooth, season and add a half cup of grated cheese, and the beaten yolks of five eggs. Cook long enough to set the eggs, remove from the fire and fold in the beaten whites. Pour the mixture into a well buttered dish and bake fifteen minutes in a moderate oven. Serve piping hot.

Mint Sherbet.—Soak half a cup of chopped mint leaves in the juice of two lemons and three oranges half an hour. Boil two cups of sugar and a cup of water five minutes, then pour over the other ingredients. When cold strain into a freezer, add the rinds of the fruit finely grated and the white of an egg beaten stiff and a cup of whipped cream.

Date Crackers.—Put a pound of seeded well washed dates with a cup of granulated sugar and a half cup of water into a saucepan and cook together until the dates are soft. Cool. Cream a cup of butter add a cup of brown sugar, add two and a half cups of rolled oats and two and a half cups of flour well mixed, stir and mix well, add a half cup of hot water and a teaspoonful of soda. Divide the dough into two parts and roll. Spread with the date mixture and place a second layer on top. Cut with a small cutter and bake in a moderate oven.

COSTUME OF RED FLOWERED CREPE

HER HANDS AND ARMS MADE MARVELOUSLY BEAUTIFUL IN A SINGLE NIGHT

FREE PRESCRIPTION DID IT

Camille de Verlac says: "Had any one told me such wonderful results could be accomplished so quickly, I positively would not have believed it. My arms and hands were covered with tan and freckles, my neck was dark and discolored from the use of high collars. All these defects were obliterated by one application of a free prescription which I am pleased to give to anyone. It is just as simple as it is effective. Go to any drug store and get a one-ounce bottle of Radix Compound. Pour the entire contents into a two-ounce bottle, add one quart of ounce of which hazel and fill with water. Prepare this prescription at your own home. Apply at night and morning. It makes the skin soft and beautiful, no matter how rough and dry it may be. One application will delight you. I have given this prescription to thousands of women and they are all just as enthusiastic as I am. Try it on your face, neck and shoulders and you will be agreeably surprised. It is deliciously cool and soothing and is not affected by perspiration. It will not rub off." Advertisement.

HOUSEHOLD HINTS

Things Worth Knowing.

One teaspoonful of vinegar put into the pan just before potatoes are finished cooking will keep them nice and white.

The easiest and quickest way to clean jewelry in a sudsy of castile soap. Rinse in diluted alcohol with a few drops of ammonia added and dry with soft cloth.

Tea stains can be removed from the tablecloth quite easily, if the stained part is dipped at once into milk.

Dates and figs, cut into small pieces and cooked in a syrup make a pleasing addition to plain boiled rice.

THE TABLE.

Mutton Broth.—Six pounds of neck of mutton, three quarts of water, five carrots, five turnips, two onions, four tablespoonfuls of barley and a little salt. Put the mutton into a saucepan with the water, as soon as it boils skim it well and then simmer it for one hour and a half. Add the vegetables cut into strips, then add the barley which has been well washed, add salt and pepper to taste and let all cook for three hours.

Orange Tapioca.—Four oranges, half a cupful of minute tapioca, three cupfuls of water, one cupful of sugar. Soak the tapioca in the water for half an hour; add the grated rind of one orange. Cook until the tapioca is transparent, then add the sugar, remove from the fire, add the strained juice of three oranges and the pulp of one. Pour into a glass dish and serve cold.

Chop enough carrots to make two cupfuls. Cook in water until tender. Press through a sieve, reserving liquid.

Stewed Tomatoes.—Half a pound of tomatoes, one teaspoonful of butter, one onion, pepper and salt, and one cupful of cooked rice. Put the tomatoes into a saucepan, add the onion, finely chopped, salt and pepper, two tablespoonfuls of water, and the butter; let them stew gently for half an hour. Then add the cooked rice, mix and serve.

Lemon Catsup.—Grate the rind from five lemons add to it one heaping tablespoonful of grated horse-radish in the strained juice of lemons, one tablespoonful of each of celery seed and mustard seed, one teaspoonful of salt, three blades of mace, a few grains of red pepper, and six cloves. Boil for forty minutes, then pour into glass jar and seal. It will be ready for use in six weeks.

Every Day Talks for Every Day People
By FRANCIS JOYCE KENNEDY

How many mothers of today are teaching their daughters the fundamental principles of homemaking?

To test for our daughters better "chances" than our parents were able to give us, is commendable. Trouble is, in our zeal to give them these chances we are prone to let the pendulum swing too far the other way and make a worse mistake.

Our daughters should be given just as good a training as our sons, there is no question as to that. Along these lines that will fit her for her future life's work.

A boy is early given to understand that he must have some trade or profession, so as to be able to "make good" and is generally backed by his parents and helped to get his bearings.

This is only fair and just. How about the sister of the average young man?

"Oh," you say "we sent her through Business College, she is a finished child in a class of sixty-four." She holds a very nice position in a downtown office.

You have had the opportunity of meeting this young girl, and while she is a very nice young girl, you are forced to mildly wonder (to yourself) if she can talk about anything besides dress, boys, and "shop." Now I am not blaming the girl. I am blaming the training she received.

Looking at this from a woman's point of view this girl has not been fairly reared as her brother. He has been given a training that will stand him in hand through all his life. Has she? In the natural order of events a young girl eventually marries and the training she received is well nigh useless, unless you want to say she has the "business instinct" down to a science.

When she enters a home of her own she is not as well qualified to keep up her end of the partnership as is the young man she marries. He just keeps right on earning, but the girl is suddenly thrown into a world that is new indeed to her. She tries hard to keep house. Good intentions, while commendable, never get satisfactory results. The young husband is perplexed, his mother never knew what the way a meal should be prepared.

He has yet to learn that his poor little wife is a "business woman" and must now start to teach herself what her mother should have taught her in the years that now are past.

A course in dressmaking is due EVERY young girl and we mothers should see that our girls receive it. After a course they need not continue to work at it, if they care to. They will be able to do their own sewing, and in the days that lie ahead of them if they have a family of their own, sewing will be an actual help to them and be ranked (in the) away ahead of their knowledge of music.

I am NOT decrying a girl having many accomplishments, only, don't neglect the practical side of your daughter's education any more than you would your own.

Delightful and Unpleasant States.

One of the most delightful states of mind to which the average man is subject is uncertainty as to the exact sentiment entertained for him by a woman whom he admires, and whom he knows to like him, but whom he is not dead set upon winning for himself.

One of the most unpleasant states is certainty that a woman deeply loves him when it is inconvenient or impossible for him to reciprocate. Yet often only a hair's breadth separates these two states—or only a few minutes in time.

Active Service.

A rather remarkable instance of a woman's long, unbroken record comes from France, where Mme. Laforest, the oldest woman postal official, has just retired after 49 years of service without once having been absent from her post, except during the recognized holidays. Entering the postal service in 1863 at the age of sixteen, she attained her sixty-fifth year last month, when, very much against her will, she was placed on the superannuation list and forced to retire from active service.

MARVELS OF PANAMA SHOWN BY LECTURER

DR. CHARLES A. PAYNE GIVES
VIVID DESCRIPTION OF THE
GREAT WATERWAY.

ENTERTAINERS GOOD

Miss Mary McEnerney of Chicago,
Famous Welfare Worker, To
Give Address This
Evening.

Marvels of the Panama canal, the colossal engineering feat, the apparently insurmountable difficulties overcome, the conversion of the Canal Zone from a pest hole into a health resort, and the enormous proportions of the new waterway and its operating machinery were vividly set forth by Dr. Charles A. Payne, the well known travel lecturer at the chautauqua last evening. Dr. Payne has the art of making statistics interesting, of putting them into such forms as to leave a concrete impression on his hearers and it is certain that they went away with a much clearer impression of the great undertaking and its significance than they ever had before. The lecture was illustrated by a large number of slides, some of them beautifully colored, prepared from photographs taken by Mr. Payne on the ground. The subjects of the pictures were well chosen each one illuminating an important phase of the canal zone activities.

For fifteen minutes or more last night the great tent and grounds were plunged into darkness, the electric lights going out just as Dr. Payne had been turned into the stereopticon. A fuse blew out because it was unable to carry the current required by the two arc lights used in the lantern, and when the fuse was replaced it was necessary to operate the lantern with but one arc and without the dissolving feature.

Emerson Winters, entertainer, and Carl Lindgren, soloist, proved to be very popular, and were encored again when they appeared. Winters gave a very amusing presentation of "How I Saw the Boat Race," besides a number of shorter sketches, all of them mirth-provoking. Lindgren sang "The Evening Star" from "The Bohemian Girl," a Scotch folk song, and old sailors ballad, which were among the best received selections. His voice is of pleasing tone qualities, well modulated, and his enunciation clear and distinct.

Attendance last night was somewhat reduced because of the threatening aspect of the weather, but what the audience wanted in number it made up in enthusiasm. The day lay occasioned by the failure of the lights did not efface its patience and good nature. Many people have got the habit of attending and a few rain drops do not frighten them away.

Today is the last day of the 1913 chautauqua, and it may be designated "Women's Day" for the reason that two women speakers appear on the program and speak on subjects of especial interest to women. This afternoon Mrs. Emma Curtis, of Texas, gave a stirring address on "The Future of the American Woman." This was of special interest to the members of the Rock County Suffrage Association who were represented in the audience. The Association contributed to the afternoon program two tableaux, the first representing the domestic scene of mother and children, the second a group of women in the costume of the Revolution, Civil War and the present. Tonight a third tableau will be shown, a reproduction of the statue entitled "The Suffragist Arousing Her Sisters." The committee in charge of these tableaux consists of Miss Sarah Sutherland, Miss Mae Hayes, Miss Elizabeth Devins, Miss Julia Lovejoy, Miss Mary Langdon and Mrs. Janet Day.

Tonight Mrs. Mary McEnerney, prominent as a leader among the recently enfranchised women of Illinois, secretary-treasurer of the women's bindery union, and a member of the executive board of the women's suffrage league will give the lecture which promises to be of a stirring and inspiring character. Her speech is pointed, epigrammatic, and will appeal to all classes of hearers.

The Lyric Glee club, a male and brass quartet, and Francis Ivers Hendry gave an entertainment this afternoon which struck a popular chord. They will repeat again this evening, their numbers preceding the lecture by Miss McEnerney.

SIDEWALK SKETCHES

HEALTH.

By Howard L. Rann.

Health is a priceless possession which a man never appreciates until he looks into the cold sympathetic eyes of a free clinic. People who are in perfect health can stand off the family doctor with the utmost unconcern and refuse to return to his wife's calls, but the man who is subject to intermittent attacks of slumping health has to pay on the first of each month or suffer in painful and bilious silence.

There are two kinds of health—inherited and acquired. The individual who inherits a good, stout brand of health is lucky, but he can take every conceivable form of risk with perfect safety. He can plunge into a porcupine bath, tub immediately after partaking of cucumbers and sweet milk, and the only distress he will experience will be caused by the harsh beard of the crash towel. While everybody around him is engaged in a hand-to-knee tussle with the hay fever and can't meet a weed without an indignant sneeze, he can work in the hay mow for a straight week and emerge without a clog in his respiratory tract. He can fall from a two-story corn crib and light on a resilient shoulder-blade, bouncing off without fracturing anything but his suspenders. He has a charmed life.

Most people, however, have to acquire what health they have by avoiding excess of any kind, such as shifting union suits in the spring, mixing a draft after mowing the lawn, dancing on the forelegs of a stepladder which overhangs the cellar stairway, etc. After a man has acquired a

MEN MUST PRESENT CLEAN HEALTH BILL IN ORDER TO MARRY

Stringent Eugenics Measure Recently Signed by Governor Goes Into Effect January First Next.

After January 1st next all men making application for marriage licenses must present with the application a certificate from a physician showing the applicant to be free from all venereal disease. This is the so-called eugenics law which was passed by the legislature late in July and which was approved by the governor last week. It has been officially published and the exact copy of the law is given below.

CHAPTER 783, LAWS OF 1913.

AN ACT to create section 2339m of the statutes, relating to marriage and venereal diseases.

The people of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. There is added to the statutes a new section to read: Section 2339m. 1. All male persons making application for license to marry shall at any time within fifteen days prior to such application, be examined as to the existence in such person of any venereal disease, and it shall be unlawful for the county clerk of any county to issue a license to marry to any person who fails to present and file with such county clerk a certificate setting forth that such person is free from acquired venereal diseases so nearly as can be determined by physical examination and by the application of the recognized clinical and laboratory tests of scientific search.

Such certificate shall be made by a licensed physician, shall be filed with the application for license to marry, and shall read as follows, to wit:

I, (Name of physician), being a legally licensed physician, do certify that I have this _____ day of _____, 19____, carefully and thoroughly examined _____ (Name of person) having applied the recognized clinical and laboratory tests of scientific search and find him to be free from all venereal disease so nearly as can be determined.

(Signature of physician)

2. Such examiners shall be physicians legally licensed to practice in this state, shall be persons of good moral character and of scientific attainments and at least thirty years of age. The fee for such examination, to be paid by the applicant for examination before the certificate shall be granted, shall not exceed three dollars. The county physician of any county shall, upon request, make the necessary examination and issue such certificate. If the same can properly be issued without charge to the applicant, if said applicant be indigent.

3. Whenever there is a dispute or disagreement regarding the findings of any medical examiner, laboratory tests shall be made in the state laboratory of hygiene from material submitted by such examiner, and the findings of the said laboratory shall be accepted as evidence of the presence or absence in the person examined of any venereal disease.

4. In any case wherein the certificate of health required by subsection 1 of this section shall be refused and the applicant shall make and file with the county clerk of the proper county an affidavit setting forth the fact that such applicant has not had a fair and impartial examination and that he is entitled to such certificate of health, it shall be the duty of such county clerk to certify such proceedings, at once, to the county court of such county without formalities or expense to such applicant. Such application shall be heard by a judge of said court, at the earliest time practicable, without a jury in court or in chambers, during the term or in vacation as the case may be. Notice of the time and place of such hearing shall be given to such applicant by mail. A certified copy of an order of such judge upon his findings in such matter determining that such applicant is entitled to such certificate of health presented and filed with such county clerk, shall have the same force and effect as such certificate and such county clerk shall thereupon issue a license to marry to such applicant.

5. Any person a resident of this state, who with intent to evade the provisions of this act shall go into another state and there have a marriage solemnized and return one year from date of such marriage shall return and reside in this state, shall upon information or knowledge to the district attorney of any county be required by him to file with

the county clerk of any county in which such person may be then a resident, a certificate of examination from such physician as set forth in this section. Any person violating the provisions of this subsection shall be punished by imprisonment in the county jail not less than thirty days nor more than one year.

6. Any county clerk who shall unlawfully issue a license to marry to any person who fails to present and file the certificate provided by subsection 1 of this section, or any party or parties having knowledge of any matter relating or pertaining to the examination of any applicant for license to marry, who shall disclose the same, or any portion thereof, except

as may be required by law, shall upon proof thereof be guilty of a felony, and shall be punished by imprisonment in the state prison not less than one year nor more than five years.

7. Any physician who shall knowingly and willfully make any false statement in the certificate provided for in subsection 1 of this section shall be guilty of perjury and upon conviction shall be punished as for perjury, and a conviction under this subsection shall revoke the license of such physician to practice in this state.

Section 2. All acts or parts of acts inconsistent with the provisions of this act are repealed.

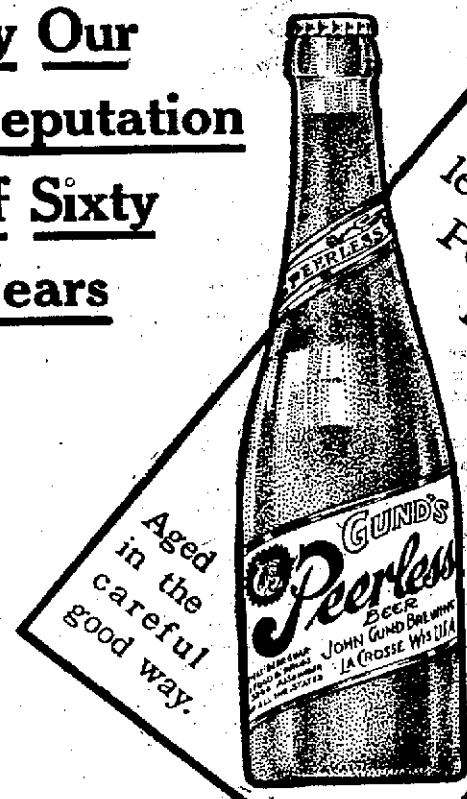

Section 3. This act shall take effect on and after January 1, 1914. Approved August 1, 1913. COPY LAW.

Photographer's Paste.

A paste which will prove permanent is made of ten parts of arrowroot, one hundred parts of water, one part gelatin, ten parts alcohol. Soak the gelatin in the water, add the arrowroot, having been previously mixed with a small quantity of water, and boil four or five minutes. When cool, add the alcohol and a few drops of carbolic acid or oil of cloves.

The Essence of Success
is the Proper Use of Time.

Every prosperous business man is habitually enterprising and alert. He estimates the minimum time required for every transaction, then tries to finish the work within the allotted period.

To the mind of such a man, the question frequently recurs throughout the day, "Can not this be done by Long Distance," and upon consideration, he often decides that the telephone method is not only practical but preferable.

"I know it. And—believe me or not—you've got me sized up all wrong. I'm not going to marry your brother. But I don't want to see his sister get into this mess. Why don't you trust me?"

"Really—"

"The machine!" rushed on Wanda. "It's got the brains of all the men that are in it. And none of the heart. It burns up everything that gets in its path. And now it needs a woman's good name and happiness to keep it in fuel. It's only square that you should be the Woman. It's let them see how other people have felt when the machine crushed them—how my father felt when he came home that horrible day, with death written in his eyes, and said to my mother: 'Molly, I'm done for. Blake and his machine have got me!' That's what he said. And he was innocent."

"But—"

"That's why I was going to let them get you, and break Jim Blake's vile old heart. It's the chance I've been waiting for, five endless years. To-night I saw God's justice begin to move. I saw that Blake and his crowd were working out their own damnation without any help from me. And then—Oh, I'm a fool!—then, all at once I forgot the justice part of it. And all I could see was that a gang of strong, cruel, clever men were fighting one unhappy woman. I—I guess that's why I've stayed here, even after you called me a blackmailer."

"But your past's no business of mine," she went on more quietly. "I just came to give you a warning. Take it or leave it. It's up to you."

"I don't want your warning," said Grace sullenly. "I tell you, I admit nothing."

"Then I can't help you."

"I have not asked your help."

"Just as you like," sighed Wanda. "But the net's closing tight around you, Mrs. Robertson. And if you count on Mr. Standish to help you or to deny anything, you're making a big mistake. The minute he finds himself cornered, he'll throw you over to save his own chances. Oh, won't you drop the bluff, once and for all? Won't you let me—?"

"You have had my answer. There is not one single fact on which to base this attack. If you try to drag my name into any unsavory scandal, so much the worse for you. If you dare make use of my name—even indirectly—in connection with this case, I shall go to my father, at once and tell him—tell him that—"

"Tell him what, Mrs. Robertson?" demanded Wanda.

"That you tried to get me to help you marry Tom. And that when I refused you threatened to blackmail me—to brand me as the Woman he's been hunting for."

A purring of the buzzer interrupted her.

"We will put it to the test now!" Grace declared, turning toward the door. "There are my husband and father outside. 'Afraid,' am I? 'Sick with fear?' You shall see. You shall tell them, here and now, that I'm the Woman they're trying to find. Tell them and see what will happen. If you haven't the courage to tell them I'll repeat your charges myself."

"Don't! Don't!" implored Wanda, as the buzzer sounded once more. "Don't try it, Mrs. Robertson! You can't carry it through, I tell you. They have too much proof."

"They won't apply their proof to me—it is you who will need proofs."

"Very good!" cried Wanda, in sudden anger. "Go ahead and do it. My conscience is clear. I wanted to help you and I got insulted for my pains. Go as far as you like. I'm through."

"You are not through yet," denied Grace furiously. "Stay where you are! We'll settle this once and for all."

She threw open the door. Matthew Standish stood waiting on the threshold.

"Will Mr. Standish Explain to Your Husband Why He Called You Up?"

underwent an almost ludicrous change. The air of defiance was lost, leaving her face strangely drawn and haggard. She dropped into a chair and pressed her hands across her burning eyes.

Standish stood, still near the door, looking down at her. His heavy dark mask of a face did not show any emotion save that its premature lines seemed all at once cut deeper. His somber eyes held no light, his deep voice no expression as he said at last:

"You know, then?"

"Yes," returned Grace, starting up. "I tried to warn you," said he. "How did you find out?"

"The phone girl, Wanda Kelly."

"I see," he mused. "I ought to have guessed. She is one of the machine's spies."

"No. She wants to help me, she said. But that isn't the point. She knows. And she is the only person who does—"

"What did you say to her when she—?"

"I denied everything, of course. What else was there to do?"

"There was nothing else to do. You were wise—while the affair is in its present state."

"It was wise in any case."

"Yes," he agreed. "It was wise for you. But I suppose you haven't stopped to consider my position in the matter?"

"Your position?" she repeated uncertainly. "What do you mean? What is your position, except to stand by me and save me?"

"You forget that I owe a duty to the men who have made me their leader in this fight; who have staked everything on me."

"And to me?" she cried shrilly. "To the Woman who staked more than everything? Do you owe nothing to me?"

"I do not want to think what I owe to you," he evaded, his voice shaking ever so little. "I beg you not to remind me of it."

"You won't help me? You put these miserable constituents and politicians of yours ahead of me?"

"If you put it that way, yes."

"Oh, most noble statesman!" she mocked, raging. "Embodiment of all that is perfect and contemptible! I didn't marry you because I no longer loved you and because I wouldn't add a blasphemous loveless marriage to my other sin. If I had become your wife—even if it ruined both our lives—you would have felt it your duty to stand by me and defend me against the entire world. But because I had the courage to stop before it made us both miserable for life, you can not in honor protect me! I wonder if you half realize how vile a thing you are!"

She paused in her furious rambling talk, for Standish's dark face had grown ghastly. Vaguely she wondered why. And as if reading her thoughts, he spoke. There was no thrill, no stir in the slow lifeless depths of his voice:

"I loved you. I have never loved any other woman in all my miserable life. I shall keep on loving you as long as I live. I do not want to. But it is past my power. I would sooner have bitten out my tongue than betray this secret of yours. All this can not interest you. I tell you, so that you may know the punishment is not all yours. You merely risk losing what you have gained and cherished during the past few years. I act with the certainty that by doing my duty I must bring ruin and heart-break on the woman whom I love more than I love my own soul. Is my task easier than yours?"

The utter ardor of his words, combined with the dull lifelessness of his tone, was almost laughable. Grace was gazing at him in blank astonishment.

"You love me?" she muttered.

"I have told you so," came the slow measured answer. "You talk much of your love for Mark Robertson. It is easy to love when love makes one blissfully happy. But is your love worthy to be compared with mine? With the love that brings only an eternal gnawing anguish—the love that can never hope for one atom of requital and yet that cannot die—the love that would sacrifice everything for you and yet must endure sacrificing—you?"

"You love me?" she repeated; and her voice had all at once grown wondrous sweet and vibrant. "You love me—Matt?"

She had drawn closer to him as she spoke. Now she was looking straight up into his wretched eyes; her own glowing like mist-haloed stars. So near to him was she that the chignon on her breast touched the harsh texture of his coat. Her breath played lightly on his face. The faint fragrance of her hair filled the man's nostrils. The warm magic of her presence dazed him.

Matthew Standish stood, his eyes wide, his breath coming fast, the sweat beads breaking from his forehead. The heavy mask on his face twisted itself into a half-grotesque aspect of pain.

"You love me?" she murmured.

"Yes!" he groaned, his big voice breaking. "God help me! Yes!"

"And you won't—you can't—destroy my whole future. You can't, dear!"

"Ah!"

It was the cry of revulsion that might break from a forest-roamer who had all but trodden on a rattlesnake. He recoiled a step, with a shudder as of physical sickness.

"Was this needed?" he raged. "Was it necessary to defile my smashed idol still further? Wasn't it enough that you long ago taught me to look on all women as shadows? Why must you turn misery into nausea by playing Delilah? My love was a tragedy. Why must you profane it and make it foul?"

He mastered himself with an effort and fought his way back to the wonted lifeless impersonality that had become to him a second nature.

"Mrs. Robertson," he went on in his customary measured slowness, "the case stands like this: your father and husband are seeking to ruin me by raking up a story of my past. That story involves you. You ask me to protect you. You sink to unspeakable methods to make me do so. I shall protect you as far as I can. I shall do so to the extreme, unless such protection must involve the welfare of the people who trust me. I will not stand by meekly and see my life work for my country ruined. I will not betray the trust of millions whose only hope rests on me. This story your father has dug up must not be made public. You understand me? It must not be made public! At any cost to myself or to you. Is that clear?"

"Then," she asked in tired desperation, "what do you mean to do?"

"Nothing at all," he returned, "so long as your father and husband keep this story quiet."

"But surely they won't publish it without knowing my—the Woman's name?"

"That is what I'm beginning to be afraid of. They may feel so absolutely certain of learning the name later, that they will circulate the story on the floor of the house tonight and in tomorrow's newspapers. And then, when they find out who the Woman really is, it will be too late to suppress it. You must stop that story. If it gets out I shall lose the fight. And I can not do that, even to save you."

"In other words," she retorted, "to save yourself you will hide behind me?"

"If you care to put it so."

"But," she urged, "I can't speak to father or Mark about it. I'm not sup-

posed why. And as if reading her thoughts, he spoke. There was no thrill, no stir in the slow lifeless depths of his voice:

"I loved you. I have never loved any other woman in all my miserable life. I shall keep on loving you as long as I live. I do not want to. But it is past my power. I act with the certainty that by doing my duty I must bring ruin and heart-break on the woman whom I love more than I love my own soul. Is my task easier than yours?"

The utter ardor of his words, combined with the dull lifelessness of his tone, was almost laughable. Grace was gazing at him in blank astonishment.

"You love me?" she muttered.

"I have told you so," came the slow measured answer. "You talk much of your love for Mark Robertson. It is easy to love when love makes one blissfully happy. But is your love worthy to be compared with mine? With the love that brings only an eternal gnawing anguish—the love that can never hope for one atom of requital and yet that cannot die—the love that would sacrifice everything for you and yet must endure sacrificing—you?"

"You love me?" she repeated; and her voice had all at once grown wondrous sweet and vibrant. "You love me—Matt?"

She had drawn closer to him as she spoke. Now she was looking straight up into his wretched eyes; her own glowing like mist-haloed stars. So near to him was she that the chignon on her breast touched the harsh texture of his coat. Her breath played lightly on his face. The faint fragrance of her hair filled the man's nostrils. The warm magic of her presence dazed him.

Matthew Standish stood, his eyes wide, his breath coming fast, the sweat beads breaking from his forehead. The heavy mask on his face twisted itself into a half-grotesque aspect of pain.

"You love me?" she murmured.

"Yes!" he groaned, his big voice breaking. "God help me! Yes!"

"And you won't—you can't—destroy my whole future. You can't, dear!"

"Ah!"

It was the cry of revulsion that might break from a forest-roamer who had all but trodden on a rattlesnake. He recoiled a step, with a shudder as of physical sickness.

"Was this needed?" he raged. "Was it necessary to defile my smashed idol still further? Wasn't it enough that you long ago taught me to look on all women as shadows? Why must you turn misery into nausea by playing Delilah? My love was a tragedy. Why must you profane it and make it foul?"

He mastered himself with an effort and fought his way back to the wonted lifeless impersonality that had become to him a second nature.

"Mrs. Robertson," he went on in his customary measured slowness, "the case stands like this: your father and husband are seeking to ruin me by raking up a story of my past. That story involves you. You ask me to protect you. You sink to unspeakable methods to make me do so. I shall protect you as far as I can. I shall do so to the extreme, unless such protection must involve the welfare of the people who trust me. I will not stand by meekly and see my life work for my country ruined. I will not betray the trust of millions whose only hope rests on me. This story your father has dug up must not be made public. You understand me? It must not be made public! At any cost to myself or to you. Is that clear?"

"Then," she asked in tired desperation, "what do you mean to do?"

"Nothing at all," he returned, "so long as your father and husband keep this story quiet."

"But surely they won't publish it without knowing my—the Woman's name?"

"That is what I'm beginning to be afraid of. They may feel so absolutely certain of learning the name later, that they will circulate the story on the floor of the house tonight and in tomorrow's newspapers. And then, when they find out who the Woman really is, it will be too late to suppress it. You must stop that story. If it gets out I shall lose the fight. And I can not do that, even to save you."

"In other words," she retorted, "to save yourself you will hide behind me?"

"If you care to put it so."

"But
